PCAB INTEGRITY PLEDGE

We believe that the construction industry is one of the most susceptible to all forms of corruption that hampers the noble objectives towards national progress and global competitiveness.

As frontrunners of nation-building, we acknowledge our major role and responsibility in ensuring that we carry out our tasks guided by ethical standards and equipped with the necessary capability for the successful prosecution of our contracts.

In view thereof, we pledge the following:

- We will present only true qualifications to PCAB so that we may be evaluated properly and be given the category and classification where we should rightfully belong;
- We will uphold the dignity of the license and not be instruments for unlicensed contractors to undertake construction projects through license lending nor through false joint ventures/consortium or pseudo combinations which is inimical to the public safety/interest;
- We will not employ unlicensed sub-contractors/specialty contractors which is a clear circumvention of the requirement that all contractors must be licensed;
- We will absolutely shun away from any form of collusion that destroys the very essence and integrity of biddings;
- We will not engage in bribery or do any act which constitutes graft or corrupt practice which is the root cause of bloated contract amounts;
- We will not use sub-standard materials which will in any way compromise the safety, reliability and performance of the built environment;
- We will not abandon our contracts and we will implement our projects faithfully in accordance with the prescribed specifications thereof;
- We will provide the necessary resources, financial and technical capability in carrying out our contractual obligations, and as far as possible, within the stipulated time of completion;
- We are aware that we will be imposed disciplinary action should we violate any of the commitments hereof or the PCAB Code of Ethics or be found to be a party to corruption.

GUIDELINES FOR CLASSIFICATION AND CATEGORIZATION OF CONTRACTORS

1. **Classification** means the area of operation that a contractor can engage is based on the technical experience of his sustaining technical employee (STE). A contractor may apply for and be issued more than one classification, one of which shall be designated as his principal classification.
2. **Category** indicates the graded level of aggregate capability of a contractor with respect to his principal classification and is based on predetermined qualification criteria which include financial capacity, experience of STE, track record and equipment. Evaluation of category shall be based on the following criteria quantified by credit points in scales as determined by the Board.

2.1 **Financial capacity**

Financial capacity shall be in term of Networth based on the latest audited financial statements submitted to the Bureau of Internal Revenue (BIR), or paid-up capital based on the latest audited financial statements submitted to the Securities and Exchange Commission (SEC), if a newly-organized partnership or corporation. PCAB has the right to reject or reduce portion thereof if, upon verification, the reported assets of the contractor were found to be erroneous or not adequately supported with appropriate documents. Corresponding credit points is 1 for every P100,000.00 of the value of Networth/Stockholder's Equity.

2.2 **Equipment Capacity**

Equipment capacity shall be in term of book value as reflected in the constructor's latest audited financial statement submitted to the BIR or the SEC, whichever is applicable, or equipment owned which are in operational condition and applicable to construction of the classification in which the constructor is to be categorized. Said owned equipment shall include units under installment and/or under lease purchase. Corresponding credit points is 1 for every P100,000.00 of the NBV of the contractor owned equipment.

2.3 **Experience of firm**

Experience of firm shall be in terms of:

- 2.3.1 Aggregate number of years in which the constructor firm, under the same business identify, has been actively engaged in construction contracting operation. Corresponding credit points is 10 for every year of actual construction operation as a licensed contractor; and
- 2.3.2 Average annual value of work completed by the firm during the past three (3) years or, if constructor's license is less than three (3) years, since being licensed, based on the audited financial statements submitted to the BIR. Corresponding credit points is one (1) for every P100,000.00 of the annual value of work accomplishment.

2.4 **Experience of technical personnel**

Experience of technical personnel shall be the sum total of individual experience of each STE nominated to the classification and shall be subject to the qualification requirement of each category as indicated in the PCAB Classification and Categorization Table. Said individual experience of the STE shall be as defined and qualified below:

- 2.4.1. The experience shall be in term of aggregate number of years in which the STE, in his present employment as well as previous, has been involved in construction is to be categorized.
- 2.4.2. It shall include only the years in which he was performing in managerial/supervisory capacity bearing on construction operation and/or contract implementation.
- 2.4.3. It shall be subject to a creditable ceiling of thirty (30) years, over which no excess shall be recognized.

Corresponding credit point is five (5) for every year of experience in construction.

The category of a contractor shall be determined on the basis of the number of points credited on the aggregate/combined experience of all its qualified STE. Only STEs who meet the minimum individual experience required shall be considered in determining aggregate experience and credit points. Thus, in order to qualify to the technical capacity requirement for category "AAA", the contractor must have qualified STEs whose individual experience is not less than ten (10) years with a creditable ceiling of thirty (30) years and have an aggregate/combined experience of at least sixty (60) years.

3. In determining a contractor's category, his qualification must satisfy all the minimum requirements, corresponding to the classification and category applied for, qualified and rated according to equivalent credit points and shall be the lowest sustainable by all three determinants as follows:

- 3.1 Financial Capacity
- 3.2 Experience of STE
- 3.3 Overall credit points based on the four qualification criteria referred to in item 2 of these guidelines.

GUIDELINES FOR THE LICENSING OF CATEGORY QUADRUPLE A CONTRACTORS

Board Resolution No. 079, series of 2017

Introduction

The Quadruple A category license is a new category that will allow for the issuance of a regular license (with annotation) to contractors with more than 40% foreign equity participation.

Scope of Registration

A newly organized domestic corporation (up to 100% foreign-owned) whose purpose is construction is eligible to apply for the category. Likewise, a licensed contractor who has an equity/networth at least PHP 1 Billion may apply for upgrading to Quadruple A.

There will be two types of Quadruple A Licenses:

1. Quadruple A Platinum - locally owned licensed contractors with at least PHP 1 Billion equity
2. Quadruple A Gold - foreign-owned domestic corporation with at least PHP 1 Billion equity

Authorized Managing Officer (AMO)

The AMO may be a foreigner provided that the foreign AMO complies with the PCAB qualification standards of a Filipino AMO. The AMO should be at least 35 years old.

The AMO should complete the AMO seminar, COSH and pass the AMO examination and interview by the Board.

Financial Qualification

The Financial Qualification shall be evidenced by Audited Financial Statements with at least PHP 1 Billion equity. For newly organized foreign owned subsidiaries, the equity of PHP 1 Billion in cash shall be evidenced by inward remittance through the Banko Sentral ng Pilipinas.

Technical Qualification

The Technical Qualification shall be that of the AAA category.

Limitation of the License

Quadruple A Gold contractors may undertake private projects under the following contract cost:

- For vertical projects - minimum contract cost of PHP 5 Billion
- For horizontal projects - minimum contract cost of PHP 3 Billion

Quadruple A Platinum contractors may undertake government and private projects of any contract cost.

The Quadruple A category shall be limited to general contractors. However, Quadruple A contractors may engage licensed subcontractor/specialty contractors to work on portions of its projects.

Renewal

Quadruple A Gold contractors should maintain the Financial and Technical Qualifications for Quadruple A category. If a Quadruple A contractor does not maintain its P 1 Billion equity, its license will be invalidated.

Quadruple A Platinum contractors who fail to meet the Financial and Technical Qualifications shall be downgraded to the highest category they will qualify for.
